INDEX TO VOLUME XXII

ANDREWS, R. D. and RILEY N. Unsteady Heat Transfer from a Rotating Disk 19

BHATNAGAR, P. L. see SACHDEV, P. L.

BUCHWALD, V. T. and DAVIES, G. A. O. Corrigendum . . 259

CHEN, W. T. Plane Thermal Stress at an Elliptical Elastic Inclusion under Uniform Heat Flow 115

CLARKE, N. S. The Asymptotic Effects of Surface Tension and Viscosity on an Axially-Symmetric Free Jet of Liquid under Gravity 247

DATTA, S. K. An Axisymmetric Problem of an Elastic Half-Space Containing a Rigid Spherical Inclusion 439

DAVIES, G. A. O. see BUCHWALD, V. T.

DEBNATH, L. and ROSENBLAT, S. The Ultimate Approach to the Steady State in the Generation of Waves on a Running Stream 221

DUXBURY, ANNE Excitation of a Semi-Infinite Dielectric Rod by an Obliquely Incident Plane Wave 389

EAGLES, P. M. Composite Series in the Orr-Sommerfeld Problem for Symmetric Channel Flow 129

EHRENZWEIG, P. D. A Note on Coupling Integrals for Problems of Incompressible Fluid Flow 355

EVANS, D. J. The Rotationally Symmetric Flow of a Viscous Fluid in the Presence of an Infinite Rotating Disc with Uniform Suction 467

GOPALACHARYULU, S. Biharmonic Eigenfunction Expansions for the Sector Problem 305

GRAEBEL, W. P. On the Slow Motion of Bodies in Stratified and Rotating Fluids 39

GREEN, A. E. and NAGHDI, P. M. On Basic Equations for Mixtures 427

HEADING, J. Propagation in an Inhomogeneous Gyrational Medium 75

HELLIWELL, J. B. and NYE, V. A. Effects of Thermal Radiation on Plane Magnetoacoustic Waves 453

HEWSON-BROWNE, R. C. A New Model for the Magnetohydrostatic Cavity Formed round a Line Dipole-Line Current Combination in a Plasma at Uniform Pressure 55

HUNT, J. N. On the Turbulent Transport of a Heterogeneous Sediment 235

HUTSON, V. A Note on an Integral Equation occurring in Thermoelasticity 125

JADY, R. J. Normal Modes of Decay of a Magnetic Field in Magnetohydrodynamics 65

KIRCHGÄSSNER, K. and SORGER, P. Branching Analysis for the Taylor Problem 183

KYDONIEFS, A. D. Finite Axisymmetric Deformations of an Initially Cylindrical Elastic Membrane Enclosing a Rigid Body 319

KYDONIEFS, A. D. and SPENCER, A. J. M. Finite Axisymmetric Deformations of an Initially Cylindrical Elastic Membrane . 87

LAWRENCE, E. G. Rigid Inclusions in an Elastic Plate . . 291

MACKIE, A. G. The Water Entry Problem 1

MACKINNON, F. R. see WARREN, F. W. G.

MULHERN, J. F. Cylindrically Symmetric Deformations of a Fibre-Reinforced Material 97

NAGHDI, P. M. see GREEN, A. E.

NORWOOD, F. R. and WARREN, W. E. Wave Propagation in the Generalized Dynamical Theory of Thermoelasticity . . 283

NYE, V. A. see HELLIWELL, J. B.

PRASAD, PHOOLAN. A Class of One-Dimensional Steady State Flows and the General Shock-Structure Problem in Radiation-Gas-Dynamics (RGD) 333

RILEY, N. see ANDREWS, R. D.

ROBERTS, P. H. Electrohydrodynamic Convection . . . 211

ROSENBLAT, S. see DEBNATH, L.

SACHDEV, P. L. and BHATNAGAR, P. L. Propagation of a Bore Produced by the Sudden Break of a Dam 501

SLEEMAN, B. D. Integral Representations Associated with High-Frequency Non-Symmetric Scattering by Prolate Spheroids 405

SORGER, P. see KIRCHGÄSSNER, K.

SPENCER, A. J. M. see KYDONIEFS, A. D.

STEWARTSON, K. Corrigenda 257

WARREN, F. W. G. and MACKINNON, F. R. Some Calculations of Vertical Mechanical Wave Energy Flux in the Atmosphere . 363

WARREN, W. E. see NORWOOD, F. R.

WATERSTON, ROBIN J. One-Dimensional Shock Waves and Acceleration Fronts in Non-Linear Viscoelastic Materials . . 261

WILLIAMS, M. M. R. The Temperature Distribution in a Radiating Fluid Flowing over a Flat Plate 487
